Inverter Compressor

LG's Inverter Compressor uses inverter technology in the compressor system which achieves a 3½ star energy rating.

LG's 10 Year Parts Warranty - as this is the heart of your refrigerator we back this with a 10 year parts warranty on the compressor.

* 2 Years parts and labour + 3 years on sealed refrigeration system (compressor, evaporator, dryer and tubing) parts only + 5 years on compressor (part only)

Non Plumbed Water Dispenser

LG's Non Plumbed Water Dispenser - With a 2.4L water tank on board, you can access water through the door. Just fill the water tank with water, and have chilled water without opening the door.

BioShield™ Door Seals

LG's Bioshield - All seals on LG fridges contain agents which prevent the growth of bacteria and mould. This helps maintain the integrity of the seals - maintaining the interior temperature, and keeping food fresher for longer.

Removable Twist Ice Tray

LG's Removable Twist Ice Tray - If more freezer space is temporarily required, LG's Removable Twist Ice tray can be removed to allow for additional space and flexibility.
