WASHING MACHINES

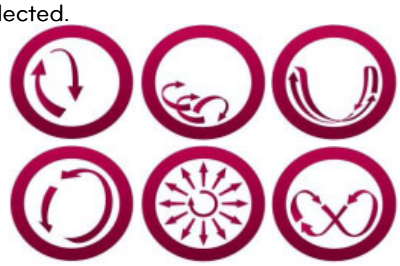
No Ordinary Washer

6 Motion Wash Technology

- LG's 6 Motion wash technology offers 6 distinct wash actions, all based on traditional hand washing techniques. The machine automatically uses the appropriate motions for the wash program selected.



Smart Diagnosis 2.0

- LG's Smart Diagnosis 2.0 allows the Washing Machine to talk for itself. If an error occurs, a phone call can be made to LG Customer Information Centre and the machine will emit a 6 second signal. This allows LG to diagnose the issue resulting in less wasted time and less inconvenience.

Direct Drive Motor

- LG's Direct Drive Motor when compared to LG's non-direct drive systems, gives less vibration, and less noise (46dB).
- Greater durability and that's why you get LG's 10 Year Direct Drive Warranty comprising of 2 Years Parts and Labour + 8 Years on the Direct Drive Motor (parts only)

Time Delay

- LG's Time Delay function lets you control when a wash will finish. No need to stay home waiting for the washing to finish, just set the delay for the period of time your out for. When you come home you're clothes are freshly washed, and haven't been sitting in a damp drum.
