- ⊕ Sensor Window
- ⊕ Volume Keys
- ⊕ SD Card Port
- ⊕ Charge/Data Cable Port
- ⊕ Music Key
- ⊕ Power/Lock Key
- ⊕ Camera Key
- ⊕ Speaker

### Face Recognition Application

- ⊕ Eve has a photo face recognition application. Once you associate a person's face with a name, Eve will automatically recognize this person in all your other photos and tag them accordingly. So with one touch all your photos of that person will be at your fingertips.
- ⊕ Plus, when connected to your contact list you can instantly communicate by clicking on their picture.

### Threaded SMS

- ⊕ With Threaded SMS, texts are grouped by sender and displayed like a message-board that is easy to follow.
- ⊕ Threaded SMS makes it much easier to stay on top of the "conversation" by displaying messages exchanged with each person in an IM format.
