White

Titanium

Wild Cherry

NSF certifies the SANITARY course which is intended for reducing 99.9% of bacteria and other harmful microscopic organisms on laundry.

LG front load washers exceed Energy Star classifications by a minimum of 39%.

FRONT LOAD WASHERS

Intelligent Electronic Controls with Dual LED Display and Dial-A-Cycle™

Intuitive controls allow you to 'set it and go'. The large display provides instructions and diagnostics while keeping you updated on the cycle status and time remaining.

Ultra Capacity with NeveRust™ Stainless Steel Drum

The largest capacity front load washer for the consumer market which means fewer loads, easy handling of large comforters and better water and energy efficiency.

Stackable or Side by Side?

Your Choice. Less space? Try stacking the washer and dryer. More space? Place them side by side or under a counter. Don't want to bend down so far to load or unload clothing? Add our tall drawer pedestals. They're also a great place to store laundry products.

Sanitary Cycle

Get tough stains and bacteria out of dirty clothes with this special cycle that boosts water to 158°F.

Load Size Sensing Indicator

Determines the size of the load so you can gauge how much detergent to use. The benefit is that you will only use the amount of detergent you need, saving you money.
