Graphite Steel

NSF certifies the SANITARY course which is intended for reducing 99.9% of bacteria and other harmful microscopic organisms on laundry.

LG front load washers exceed Energy Star classifications by a minimum of 39%.

FRONT LOAD WASHERS

TrueBalance™ Anti-Vibration System

Creates a quieter washer operation by reducing vibration and noise.

Wash/Rinse Optimizer™

The Wash/Rinse Optimizer™ delivers optimal washing and rinsing performance. A special sensor determines the amount of detergent and water hardness, making automatic adjustments to the wash/rinse processes. When there is too much detergent, additional rinse cycles are added to virtually eliminate soap residue making fabrics more comfortable on sensitive skin as well as ensuring a “like new” appearance on dark clothes. When too little detergent is used, this feature extends the wash cycle to ensure adequate cleaning performance.

Ultra Capacity

4.5 cu.ft. Ultra Capacity is among the largest washers available. This allows for larger loads saving you time and energy.

Large Door Opening

The 16.93” extra large door opening is one of the largest openings available. This allows for a spacious opening for easier access for loading and unloading clothes and bulky items.

Intelligent Electronic Controls with Dual LED Display and Dial-A-Cycle™

Intuitive controls take the guesswork out of doing laundry allowing you to ‘set it and go’.
