# FRONT LOAD WASHERS

## TrueBalance™ Anti-Vibration System

Creates a quieter washer operation by reducing vibration and noise.

## Allergiene™

Allergiene™ cycle is proven to reduce certain allergens such as house dust mites and domestic animal dander.

## SteamFresh™

LG's innovative SteamFresh™ cycle makes it possible for you to refresh and reduce wrinkles in up to 5 garments at one time. Running late for work with no time to iron? Load a cotton blend shirt into the SteamWasher™ and select the SteamFresh™ cycle. You'll be ready to go in just 20 minutes.

## Wash/Rinse Optimizer™

The Wash/Rinse Optimizer™ delivers optimal washing and rinsing performance. A special sensor determines the amount of detergent and water hardness, making automatic adjustments to the wash/rinse processes. When there is too much detergent, additional rinse cycles are added to virtually eliminate soap residue making fabrics more comfortable on sensitive skin as well as ensuring a "like new" appearance on dark clothes. When too little detergent is used, this feature extends the wash cycle to ensure adequate cleaning performance.

## Ultra Capacity

4.5 cu.ft. Ultra Capacity is among the largest washers available. This allows for larger loads saving you time and energy.

## Intelligent Electronic Controls with Big LCD Display

Intuitive controls allow you to 'set it and go'. The large LCD display provides instructions and diagnostics while keeping you updated on the cycle status and time remaining.
