## Philosophy on Quality

Our founder's philosophy on quality has been the foundation for raising the consciousness of LG Electronics employees.

## Koo In Hwoi 1907-1969

LG Founding Chairman

If 1 out of 100 is found to be defective, then we must assume there are defects in the other 99.

Selling many products is not in our best interest if that one product is not the right product.

It should be common sense that customer trust is more valuable than profit.

### **CEO** Message

Key directions In 2023.

"Each and every one of us at LG is a 'Value Creator' for our customers. My hope is that everyone truly appreciates our customers and contemplates how we can provide them with more and better values by meeting, listening to and becoming them."

"We need to courageously go through the trials and difficulties that we inevitably encounter in our individual challenges with an optimistic attitude and positive mindset that we can definitely succeed, as we have done so far."

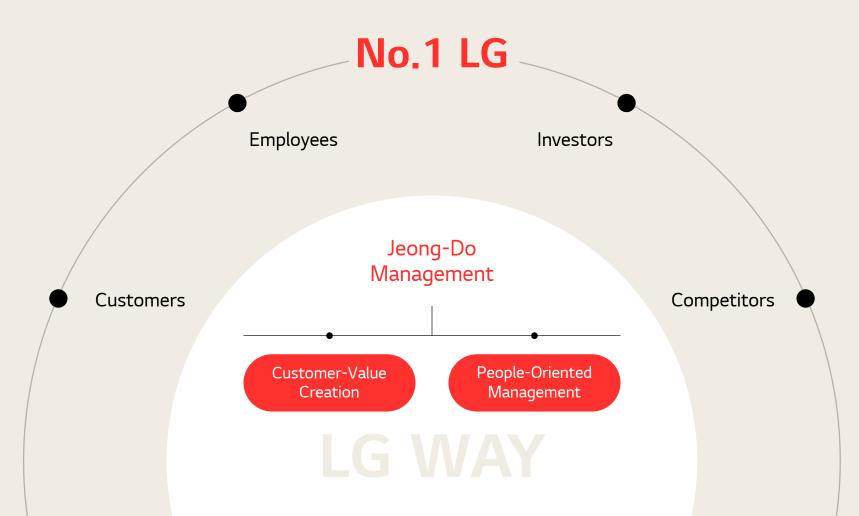

# William Cho

### Philosophy on Management

#### Vision

Through Jeong-Do Management and its two tenets of 'Customer-Value Creation' and 'People-Oriented Management', we ultimately aspire to become **No. 1 LG**, a market-leading company recognized and respected by industry peers as well as consumers worldwide. *(differ line breakings above)*
