Commercial Lite

UX340C

ULTRA HD TV

A new standard of high definition raises the viewing experience higher than ever. 4K resolution is the future of digital picture, possessing a resolution four times that of Full HD, with stunning 8.3 million pixels for a flawless picture and incredibly vivid detail.

<FULL HD>
Normal FULL HD picture quality

<ULTRA HD TV>
A resolution four times higher than FULL HD accurately expresses even the minutest details

Prime Picture

Experience ULTRA HD quality without the ULTRA HD content. UX340C displays Full HD content in ULTRA HD quality through the Triple XD Engine and 4K Upscaler.

4K Upscaler

Enjoy Full HD content in 4K ULTRA HD quality. The 4K Upscaler automatically upgrades Full HD content to ULTRA HD through the six steps of the upscaling process.

Triple XD engine

LG's Triple XD Engine brings the ultimate level of excellence in color, contrast, and clarity for the best picture quality and performance.

4K IPS Wide Viewing Angle

One of the secrets behind LG TVs outstanding viewing experience is the specially designed TV panel. IPS 4K delivers true color from any angle with 4 times the resolution of Full HD. With IPS 4K, every seat is the best for watching content in your space.

UX340C

Prime Design & Sound

Design

By perfectly balancing its premium design with world-class resolution, LG's ULTRA HD TV enriches your hotel decor. The breathtaking ULTRA Slim and Dual Metal design naturally blends into your hotel for a look of class and taste.

• Dual Metal Design

• ULTRA Slim

Virtual Surround

Virtual Surround delivers a high quality listening experience that seems to surround you from every direction.

Basic Hospitality Solutions

Crucial commercial functions even have the perfect picture quality of the LG Prime ULTRA HD TV.

Welcome Video/Screen

With the capability to display various video formats* as well as images, Commercial Lite TVs allow for a greater variation of greeting messages in hotel rooms which make customers feel more welcome and cared for.

* mp4, avi, mov, tp, wma, ts etc.

Interactivity Ready

Allows you to connect interactive set top boxes or media players enabling you to control and manage your TV via RS232C cable.

Self-diagnostics

Enables service engineers to recognize technical issues in a TV quickly and easily through a USB stick. The TV stores technical issues encountered and deliver them to a USB device. Service engineers use this information to analyze technical issues instead of visiting sites.
