2009/10 COLLECTION

LG VACUUM CLEANERS

'One third of all Brits like to vacuum every day.'

Source: LG Simply Living 2009

LG vacuums are designed to make vacuuming a pleasure rather than a chore. They are strong and ergonomic with a large capacity.

BRINGING GREAT IDEAS TO LIFE!

Looking for more cleaning power? Less mess? Bigger capacity?
LG bagless vacuum cleaners bring bright ideas and the very best
in new technology to your home.

We compress others don't...

Q: Are you worried about dirt flying around when you empty your bagless vacuum cleaner?

A: EFFECTIVE DIRT CAPTURE

The new LG Compressor features the world's first Motorised Dirt Compression technology. It helps prevent particles from escaping when you empty your bin and ensures dirt is collected and compressed. This makes dirt disposal clean and simple.

Q: Does your vacuum always seem to need emptying?

A: EXTRA LARGE CAPACITY

Now you can empty your vacuum cleaner much less frequently. The unique RotaBlade inside the bin moves continuously compacting the dirt so leaving more room for more cleaning.

Q: Do you find emptying your vacuum's bin difficult and messy?

A: SIMPLE DIRT DISPOSAL

Our simplified 2nd generation dirt bin will take the mess out of emptying your vacuum cleaner. Dirt can be disposed of quickly, cleanly and easily.

We compress others don't...

DESIGNED AND ENGINEERED TO
PROVIDE A TOTAL CLEANING EXPERIENCE

1. ENHANCED DIRT COMPRESSION SYSTEM

- Complete Dirt Capture
- Extra Large Capacity
- Simple Dirt Disposal

2. FINE DIRT & ODOUR AIR SHIELD

- HEPA H12/H13 filter for up to 99.97% dirt filtration
- Carbon filter with deodorisation function

3. INSTANT MULTI-TASK TOOLS

- Built-in 2-in-1 tool (upholstery & cleaning brush)
- On-board crevice tool

4. AIR SEPARATION SYSTEM

- For the most effective dirt collection
