

## **Experience Personal Surround Sound During Your Next Workout with LG TONE Active+™**

*Water and Sweat Resistant Headset Gives Two Ways to Listen and Stays Put While You Stay Active*

**ENGLEWOOD CLIFFS N.J., Aug. 25, 2016** — You can now add personal surround sound to your next workout with the new LG TONE Active+™, available now at AT&T and compatible with Android smartphones like the LG G5™ and with iOS.

Not only does the LG TONE Active+ headset come with built-in external stereo speakers that amps up the bass in your playlist, this sleek *Bluetooth®* headset is designed to stay put during your workout to ensure you don't miss a beat, whether lifting weights in a sweat induced session or running the last mile of a 5K in the rain. With easy to reach buttons on each side of the headset, you can easily turn up the volume on your workout and rewind or fast forward your music without fumbling with your phone.

“Your workout doesn't stop, so why should your music have to?” said Bruce Tripido, LG Senior Director, U.S. Accessories. “The external speakers on the new LG TONE Active+ wireless Bluetooth headset gives fitness enthusiasts peak sound performance with robust bass, crisp treble, and more defined vocals, making it easy and fun to power through their playlist and their workout.”

For those workouts where personal surround sound isn't needed, the LG TONE Active+ also comes with retractable earbuds, interchangeable stabilizer tips, and multiple ear gel sizes which means you'll always have a great fit. With a simple toggle button, you can switch between speaker mode and earbud mode, and if you have to take a break from your playlist to take a call during your workout, the LG TONE Active+ comes with dual MEMS microphones for clear voice calls.

1. Data charges may apply for downloading and using apps and sync feature.

The LG TONE Active+ is designed to keep up with the longest and toughest workouts. Whether you use the retractable earbuds or the external stereo speakers you can enjoy listening to music, even Hi-Fi sound, for up to half a day or up to six hours in speaker mode. You even get up to 13 hours of talk time. Plus, it only takes two hours to charge the LG TONE Active+.

For even the toughest of workouts, the LG TONE Active+ defends against sweat and splashing through its durable design. Plus, with built-in fitness monitoring features, you can keep track of calories burned, monitor your steps and distance, and record your recent workouts by syncing with apps like LG Health for Android™ and LG Tone & Health™ for iOS<sup>1</sup>.

Available at AT&T for \$179.00, the LG TONE Active+ comes in black, blue and silver, which are sure to compliment any workout or athleisure outfit.
