ELECTRIC/GAS DRYERS

SteamFresh™

LG's innovative SteamFresh™ cycle makes it possible for you to refresh and reduce wrinkles in up to 5 garments at one time. Running late for work with no time to iron? Load a cotton blend shirt and select the SteamFresh™ cycle. You'll be ready to go in just 20 minutes.

ReduceStatic™

Neutralizes static electricity in normal loads by introducing steam during the final five minutes of the cycle.

EasyIron™

Evenly and lightly moistens load prior to cycle end.

Intelligent Electronic Controls with Blue LCD Display and Dial-A-Cycle™

Intuitive controls allow you to 'set it and go'. You can also save your favorite dry cycle by pressing Custom Program. You'll have optimized drying performance with the push of a button.

Sensor Dry System

Measures moisture in the drum during the cycle, then automatically adjusts the drying time and temperature for optimal fabric care.

Remote Monitor Ready

LG's Remote Monitoring System makes it easier to keep tabs on your laundry. Simply plug the modem into any outlet in your home and it communicates with the machine to display the time remaining in the cycle. Whether you're putting away groceries or relaxing with a good book, you'll know how much time is left. Your repeated trips to the laundry room are over.
