

Edge-lit LED IPTV with Integrated Pro:Idiom® and b-LAN™

The LX774H is a cost-effective Smart IPTV model series, offering an edge-lit LED display with a slim bezel design. This series supports the Pro:Centric® SMART application platform, as well as Media Share features and integrated Pro:Idiom® technology. The LX774H models also have an embedded b-LAN™ module.

LX774H

- Pro:Centric® SMART
- Integrated Pro:Idiom® DRM Technology
- webOS & Media Share Features
- Commercial Swivel Stand

Screen size

43" (42.7" diagonal), 49" (48.7" diagonal),
55" (54.6" diagonal)

Key Features

Pro:Centric® SMART

The LX774H is the latest in the line of Pro:Centric TVs that provide a unique and dedicated hotel applications hosting platform for LG's system integrators' interactive applications, enabling delivery for a wide range of custom applications tailored to both hotel management and guests' needs.

LG Pro:Centric SMART offers extended customizable tools: HTML5, Java and Flash. Using these tools, partners can optimize the TVs by editing and developing their own enhanced service design to increase the visual impact on guests.

Pro:Idiom®

GLOBAL LEADING DIGITAL RIGHTS MANAGEMENT (DRM) SOLUTION

Pro:Idiom unlocks access to premium content to help ensure rapid and broad deployment of HDTV and other high value digital content.

Pro:Idiom has been designed specifically for users of premium HDTV content from cable, satellite, or video on demand (VOD) services, and is intended to lower costs and reduce maintenance. This leading DRM system is embraced for its security solution, prevents illegal copying of copyrighted content.

Media Share Features

Smart Share

LG Smart Share® allows guests to use the TV to access and view data shared either by wired DLNA Certified® devices connected to the same LAN as the TV or by wireless LG devices using LG's Smart Share application with Wi-Fi Direct®.

Screen Share

Screen Share enables screen sharing with a Miracast® or Wireless Display (WiDi) capable device (e.g., a laptop with Intel® hardware).

Bluetooth Sound Sync (Bluetooth 3.0)

Bluetooth Sound Sync allows guests to listen to audio from a Bluetooth-enabled mobile device through the TV's speakers

* Support devices for Bluetooth Sound Sync :

Android (above v4.4 KitKat) / iOS based Mobile Device

SoftAP

SoftAP enables the TV to function as a 2.4 GHz wireless access point for up to five devices.

DIAL

DIAL (Discovery and Launch) allows guests to play selected application media on the TV from a device with DIAL capability. The device may be used to cast any application for which a TV-compatible application has been created/selected.

Pre-loaded Apps

Guests can be served with bandwidth-worry-free pre-loaded applications, including Accuweather, Crackle, HULU, Web Browser, and YouTube (other applications may be added in the future, subject to licensing terms).

Edge-lit LED IPTV with Integrated Pro:Idiom® and b-LAN™

Pro:Centric Application

Personalize the television experience with the Pro:Centric Application (PCA), which provides guests' access to a variety of additional features, such as an interactive Electronic Program Guide (EPG), weather forecast and radar map, and customized electronic billboards for information on hotel amenities, all conveniently presented through the on-screen menus.

EPG Option

Free Interactive EPG Service for Pro:Centric TVs

PLAN HIGHLIGHTS

If your property has purchased or plans to purchase LG's Pro:Centric TVs, you may qualify for a free EPG that allows guests to easily navigate TV channels and programs, just like they do at home. Participating properties must purchase and install a Pro:Centric server and supply an internet connection for daily program updates. Properties must also contract with an LG authorized partner to install and program the server to match your Free-To-Guest (FTG) Channel Map.

Free program guide service runs until December 2017, replacing the previous programming fee of \$1.50 per room per month.

Contact your LG sales representative or visit:
www.LG.com/us/commercial/display-discover/epg

LG's FTG COST EFFECTIVE SOLUTION

When using LG televisions in FTG hotel installations, the Pro:Centric server (PCS200S) supports remote management of TV settings. With remote management, individual room visits are no longer required for TV configuration updates, including FTG Channel Map and FTG Installer Menu settings updates, thereby saving labor costs.

Hotel Costs For FTG Channel Management

	Estimated Labor Costs	MSRP	Total	Savings over room visit
LG Pro:Centric TV with Pro:Centric Server		\$2,499 (PCS200S)	\$2,499	\$17,501
Manual Room Updates	\$20(est.) x 2 times per year (to update channels) x 100 rooms x 5 years		\$20,000	

MSRP subject to change. Installation not included.

PCS200S HEAD END SYSTEM

Remote management functions are supported via the Pro:Centric server.

The Pro:Centric Application software can be remotely added at a later date to deliver the benefits of LG's pro:centric features (Weather, EPG, Billboards, etc.).

FMA-LG102

Free-To-Guest Management Appliance (FMA)

LG's Free-To-Guest Management Appliance delivers the FTG Channel Map to the guest rooms, via the hotel's RF distribution system.

Pro:Centric Direct Ready

Simply create your own templates and remotely manage TVs on the IP network with Pro:Centric Direct, LG's content management software. Pro:Centric Direct offers a Project Editor, along with customizable widgets and three types of theme templates (Cinematic-type, Grid-type, Bar-type) in order to promote branding and provide useful information for guests. Its interactive features will impress guests by elevating their in-room experience. Plus, for hoteliers, not only does it offer efficient content production and management, it also maximizes advertisement effectiveness, which contributes to improving the hotel brand.

Theme Option (Bar)

Others Hospitality Features

Welcome Screen

Have a warm greeting message with a hotel name and its logo on the TV when it is turned on. The welcome screen leaves a favorable impression of the hotel on guests.

External Speaker Out

Enhance the entertainment experience by adding an additional speaker. Guests may listen to and control the TV audio from anywhere in the business areas, including restrooms.

Instant On

The Instant On feature removes application boot time, so guests are immediately presented with the user interface screen when they turn on the TV.

USB Cloning

The USB Cloning feature allows you to simply copy the TV settings onto all TVs using a USB memory device, a process that is fully automated to save time without having to set each TV one-by-one.
