LG'S FREE-TO-GUEST COST EFFECTIVE SOLUTION

For Free-To-Guest hotel installations, when using LG's b-LAN Free-To-Guest built-in technology plus LG's Free-To-Guest Management Appliance (FMA), virtual channel mapping, configuration of commercial installer menu settings, and other adjustments can be made from the centralized head-end FMA system. This is an added value of time savings and therefore cost savings in labor charges by not having to go room to room for a change of settings.
