

Pro:Centric™ Single Tuner™ Edge-Lit LED TV with Integrated Pro:Idiom®

► 55LS675H

55" class (54.6" measured diagonally)

RAISING THE STANDARD OF FINE SERVICE

Whenever guests find comfortable accommodations that suit their needs, LG Hotel TVs have been a part of leaving a positive impression. LG's continuing commitment towards achieving the highest standard of excellence enables us to deliver the best solutions and products in the industry.

A TRUE DEDICATION TO MUTUAL SUCCESS

LG's focus on the success of your business and your guest's satisfaction has led to true partnerships based on reliability, trust and excellence.

MAXIMIZING THE GUEST EXPERIENCE

As hotel guests are increasingly demanding their at-home viewing experience, greater customization and flexibility of their TV service, the same needs have risen for service providers. LG hotel TVs provide the built-in capability to support customized applications and services through a wide array of system integrators and service providers.

Features

No need for printed materials for the guests

Providing incredibly easy-to-use content delivery and a flexible communications interface, LG opens up new and exciting possibilities in guest room interactivity. The ability to quickly and easily add or update information creates real savings in printing costs and allows a more timely presentation of pertinent and valuable information to guests. Guests will be able to locate and enjoy available television entertainment with the channel selection guide application, check on the daily weather, and review the available hotel amenities.

Reduced waste, save cost and time

Less hardware and no printed materials for the room mean less carbon footprint for the environment and cost and time saving for the businesses. Furthermore, it helps to make the guest rooms look tidy.

Easy Management

With a single welcome screen, you can easily see hotel services and amenities available as well as managing and editing multiple videos. You can even control all the room settings with a single remote.

Easy Content Creation & Editing

The program and content can be configured to match your hotel's style and the customer's preference. The hotel management staff can easily edit and set the programs and content as needed.

Reduced TCO

Because guests can communicate with the hotel through the TV for services, it reduces the staff's workload such as receiving service and inquiry calls. Without installing complicated software, you can easily set up EzManager that is very simple to use.

Eco Friendly

LG Hotel TVs has excellent energy saving features such as Intelligent Sensor, Dynamic Power Savings, and Static Power Savings. The hotels can enjoy cost savings while supporting efforts of Green initiative.

Memorable Guest Experience

LS675H is designed to provide memorable guest experience such as ability for the guests to view their own contents that are stored on their portable devices and its swivel stand that provides excellent maneuverability for left and right viewing.

The plug and play function with compatible Remote Jack Pack enables guests to view media from their portable devices on the TV screen seamlessly.

Compatibility:

MP3 | Digital Camera | Mobile | Laptop

LIFE'S GOOD... when it's green.

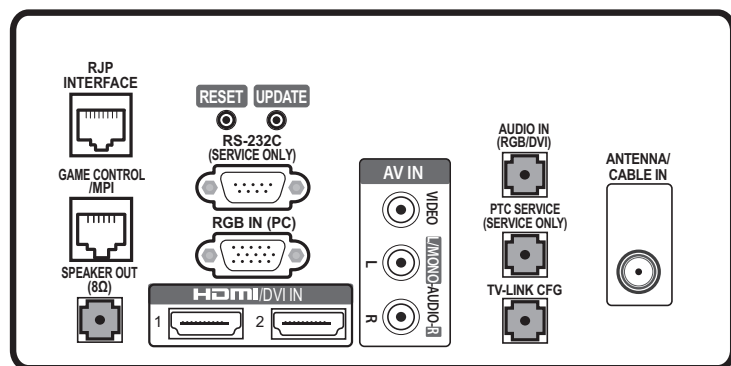

LG is committed to improving product development, manufacturing and usage to meet the demand for products with environmentally friendlier features. Our televisions have technologies to reduce power consumption and in return increase cost savings per room.

EcoSmart

- **Intelligent Sensor** - Continually monitors room light conditions to automatically optimize the picture quality for a more enjoyable viewing experience, which can help save energy.
- **Dynamic Power Savings** - Using built-in algorithms, TV will automatically reduce the power consumption based on incoming video, while maximizing picture performance.
- **Static Power Savings** - Picture brightness level can be set at the preferred power consumption level to reduce power and increase energy savings.
- **CEC Compliant** - Meets the Appliance Efficiency Regulations of the California Energy Commission.
- **RoHS Compliant** - Meets directive on restriction of hazardous substances.
- **Energy Star 5.3 Qualified** - Meets current reduction requirements of energy consumption.
