## EMERGENCY DIALING

While all phones are equipped with 911 emergency calling, this phone may or may not permit its location to be approximated during a 911 call.\*

\* Availability of this feature depends on upgrades to the (a) wireless network and (b) 911 calling system that are required to be installed by the local 911 response agency or public safety answering point (PSAP); these upgrades may not be available everywhere within our wireless coverage area or your roaming area. This approximation of the phone's location and the transmittal of location information are subject to emergency situations, transmission limits, network problems/limitations, interconnecting carrier problems, your phone, buildings/tunnels, signal strength and atmospheric/topographical conditions, and may be curtailed, interrupted, dropped or refused. The phone's approximate location is transmitted to the local 911 response agency or PSAP while the call is in progress; this approximation is intended solely to aid the PSAP in dispatching emergency assistance or to limit the search area for emergency services personnel. You should not rely solely on a phone for essential communications (such as a medical or other emergency). Please see T-Mobile's Terms and Conditions and Privacy Policy for additional service restrictions and details.

## CARING FOR YOUR PHONE

### MAKING IT LAST

Your phone is a complex electronic device; think of it as a mini-computer. Here are some hints that should help you extend the life of your new phone.

#### **Store your phone in a protective case.**

The touch screen of your phone is delicate and should be protected from scratches.

**Phones aren't cheap, so keep yours in a safe place**—away from children who may find it fun to see if the phone sinks or floats, and away from dogs that find plastic-coated products to be irresistible chew toys.

**Water will damage your phone and accessories**—even a small amount such as water droplets from a soda in your car cup-holder, melting snowflakes, tears of joy, squirt-gun crossfire or steam from hot water in the kitchen or bathroom.

**Use only batteries and accessories from the original manufacturer of your phone.** Non-approved accessories can cause damage to you or your phone and shorten the phone's life. Hint: If it's being sold out of someone's car trunk, walk away.

---

**If your charger or any other accessory is damaged, replace it or take it to a qualified service dealer.** Do not attempt to operate your phone charger if it has received a sharp blow, been dropped, thrown from a speeding motorcycle or is otherwise damaged; doing so may damage your phone.

---

## TIPS FOR SAFETY

Check with your doctor if you have a pacemaker or hearing aid in order to ensure that cell phone usage is safe with your phone. If you have questions about the interaction of cellular radio frequency and any other electronic equipment, ask the manufacturer of the equipment if cell phone radio frequencies will disrupt the equipment's performance.

**When you are driving, T-Mobile encourages you to use your phone in a safe and sensible manner. Here are a few tips:**

- Assess road conditions before answering. Your safety is more important than any call.
- Prepare your hands-free headset, if you have one, or turn on your speakerphone option before you start moving.
- Keep your phone close. If it rings and you discover it's in the back seat, do NOT crawl over the seat to answer it while driving.

- 
- Program frequently used numbers into your speed dial for easy one-touch dialing.
  - Remember that laws prohibiting or restricting the use of a mobile phone while driving may apply in your area.

## ADDITIONAL INFORMATION

Use of some features or services may incur separate, additional charges and/or require a qualifying data plan.

**Messaging/Data:** You will be charged for all data sent by or to you through the network, regardless of whether received. Character length/file size of messages/attachments may be limited. T-Mobile is not liable for content of messages/attachments or for any failures, delays or errors in any T-Mobile generated alerts or notifications.

**Downloads:** Additional charges apply; not all downloads available on all phones. You obtain no rights in downloads; duration of use may be limited; may be stored solely for use with your phone. T-Mobile is not responsible for any download lost due to your error; T-Mobile is not responsible for any third party content or Web site you may be able to access using your phone.
