Keep track of contact information with the searchable contact list.

Save a Contact

1. From standby mode and with the slide open, press **up** on the **Navigation Key** to access your **contact list**.
2. Press the **Left Soft Key** for **New** to create a new contact.
3. Use the keyboard to enter the contact's name and contact information.
4. When you're ready, press OK for **Save**.
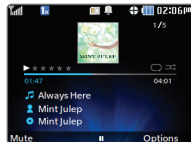

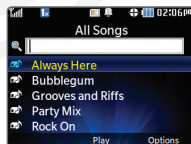

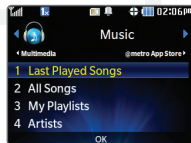

Search Contacts

1. From standby mode and with the slide open, press **up** on the **Navigation Key** to access your contact list.
2. Enter the first few letters of a contact's name with the keyboard. Your phone will skip ahead to the first contact that matches these letters.

Enjoy your favorite songs on your mobile phone! Access music files with the music player and enjoy them to their fullest with stereo headsets or speakers.

1. With the slide open and a microSD card containing compatible music files in your phone, press 🎵 on the keyboard.

2. Press the **2 Key** for **All Songs (2)** to view a list of all available songs.

3. Highlight a song with the **Navigation Key** and press OK for **Play**.

Find your most used features in seconds with My Menu! You may assign up to 12 shortcuts to specific menus or applications.

Add a Feature to My Menu
1. With the slide closed and the screen unlocked, press the **Left Soft Key** for **Menu** and select **My Menu (8)**.
2. Highlight a field labeled **Unassigned** and press OK for **Set**.
3. Select the category containing the menu item you wish to add with OK. You may now select a menu item by highlighting it and pressing OK.

Access a Feature via My Menu
1. From the My Menu screen, highlight a command or menu with the **Navigation Key** and press OK.

Take pictures on the fly with the integrated digital camera. Enjoy the flexibility of zoom, multishot, and a number of other customizable features.

1. With the slide closed and the screen unlocked, press and *hold* 📷 to access the viewfinder.
2. Use the **Navigation Key** and **Right Soft Key** to browse a number of customizable options and settings.*
3. When you're ready, press 📷 to take a photo.
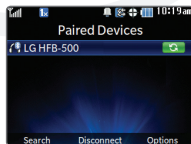

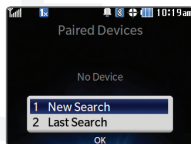

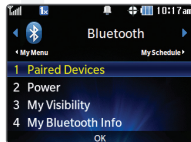

Camera
Key

*The zoom and multishot features are only available at 640 x 480 and 320 x 240 resolutions.

Tired of getting tied up with cables and plugs? Don't worry; *Bluetooth* wireless technology pairs your phone with a wide range of wireless devices and accessories!

1. Before you begin, set your *Bluetooth* accessory into pairing mode.*
2. From standby mode and with the slide open, press the **Left Soft Key** for **Menu** and select **Bluetooth (9)**.
3. Press **OK** for **Paired Devices (1)** and select **Search** with the **Left Soft Key**. If you are prompted to enable *Bluetooth*, do so by pressing **OK** for **Yes (1)**. You may now select **New Search (1)**.
4. Highlight your device with the **Navigation Key**, and then press **OK** for **Pair**. You may be prompted for a passcode.*
5. If you are prompted to connect to the device, press **OK** again.

*Refer to your *Bluetooth* accessory's user guide for information about initiating pairing mode and the passcode if asked (typically "0000"). If the accessory supports the headset/hands-free profile, your phone will automatically pair for you without having to input the passcode.

Note: *Bluetooth* accessories sold separately.

Optional Accessories

Bluetooth Headset
(HBM-210)

Bluetooth Solar Speakerphone
(HFB-500)

Vehicle Power Charger
