Dedicated Hot Keys

LG Wine II's dedicated hot keys provide quick access to convenient features. Plus, you can customize the Widget Hot Key so even more features are just a click away!

Hot Keys
**Widget** – Customize this key to access the notepad, calendar, and more.
Alarm Clock – Set up to five alarms.
Images – Access photos you've taken and default wallpapers.
**easy**edge – download games, ringtones, pictures, and more.

Customize Widget Hot Key
1. From standby mode and with the flip open, press OK.
2. Select **Settings (9)**, and then choose **Display (2)**.
3. Select **Widget (2)**, and then choose **Widget Settings (1)**.
4. From here, you may choose which widgets you'd like to add. Highlight a feature using the **Navigation Key**, and then press OK to mark it.
5. When you're finished marking features, press the **Left Soft Key** for **Done**.

Using Scalable Font

Font too small? Want to fit more text on the screen at once? Don't worry, you can adjust the size of on-screen text on the fly!

1. From standby mode and with the flip open, press [OK].

2. Select **Settings (9)**, and then choose **Display (2)**.

3. Select **Font Settings (8)**.

4. From here, you may adjust the font type, size, and color by scrolling to each category and then pressing left or right on the **Navigation Key**.

5. When you're finished adjusting font settings, press [OK] to save your changes.

Bluetooth® **Pairing**

Connect to accessories, computers, and other phones via *Bluetooth* wireless technology. Once connected, you may take advantage of hands-free audio, data transfer, and other wireless conveniences.

1. Before you begin, set your *Bluetooth* accessory into pairing mode.*
2. From standby mode and with the flip open, press up on the **Navigation Key** to access the *Bluetooth* menu.
3. Select **Paired Devices (1)**, and then press the **Left Soft Key** for **Search**.
4. If *Bluetooth* power is off, press OK to turn it on, and then select **New Search (1)**.
5. Highlight your device and press OK for **Pair**.
6. Press OK to connect to your device.

*Refer to your *Bluetooth* accessory's user guide for information about initiating pairing mode and the passcode if asked (typically "0000").

**Note**: *Bluetooth* accessories sold separately.

FM Tuner

Enjoy live local radio directly on your phone! Just plug in a headset and have access to a full range of stations. You can even program preset channels!

1. From standby mode and with the flip open, insert the included headset into the headset jack located on the top left corner of the phone.
2. Press OK, and then select **FM Radio (0)**.
3. Press **right** on the **Navigation Key** to locate a local music station.
4. To manually program a station, press the **Right Soft Key** for **Options**, and then select **Add New (3)**.
5. Press OK for **Save**.

Note: To automatically scan for channels instead of manually programming them, press OK for **Channel**, press OK for **Scan**, and select **Yes (1)**. If you've already added a channel, press OK for **Channel**, press the **Right Soft Key** for **Options**, and select **Auto Scan (7)**.

Restrictions

Want a little privacy, or want to let someone borrow your phone—with limits? With LG Wine II, you can easily restrict incoming or outgoing calls and messages, along with several other features.

1. From standby mode and with the flip open, press OK, and then select **Settings (9)**.
2. Select **Security (3)**.
3. Enter the lock code (typically the last four digits of your phone number), and press OK.
4. Choose **Restrictions (2)**, re-enter your lock code, and press OK.
5. Use the **Navigation Key** to select the category you wish to restrict, and then press OK.
6. Select the level of restriction you wish, and then press OK.
