Getting to Know Your Phone

Bluetooth® Pairing

The UX355 can connect with other Bluetooth® enabled devices like headsets, speakerphones, and laptops that are nearby so you can make calls and share data wirelessly.

1. From standby mode, press the **Left Soft Key** for **Menu** and select **Settings (8)**.
2. Scroll up and select **Bluetooth (7)**.
3. Select **Paired Devices (1)**.
4. Press the **Right Soft Key** for **New** and press **OK** to search for new Bluetooth devices within range.
5. Press **OK** once again to turn on Bluetooth.
6. Select a found device and press **OK**.
7. Enter the device's passkey (typically "0000" – 4 zeroes) and press **OK** to pair. (Consult your device's user manual for its passkey.)
8. Press **OK** to connect.

The Bluetooth trademark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by LG Electronics is under license.

Sending a vCard

Save needless keystroking by sending contact information from your phone directly to another Bluetooth® enabled device that supports vCard.

1. From standby mode, press the **Right Soft Key** for **Contacts**.
2. Highlight a contact and press the **Right Soft Key** for **Options**.
3. Select **Send via Bluetooth (5)**.
4. If Bluetooth is off, select **Yes (1)** and press **OK** to turn Bluetooth on.
5. Scroll to highlight a paired device and press **OK** to send.

Taking a Picture

Take rich photos day or night with the 1.3 megapixel camera with flash. Then let everyone else in on the fun by sending them instantly to your favorite contacts.

1. Press the  Key.
2. Press **left** or **right** on the Navigation Key to adjust brightness and **up** or **down** for zoom* and press **OK**. Press the **Right Soft Key** to adjust resolution, quality, flash, and multishot*.
3. Press  to take the picture.
4. Press the **Left Soft Key** to save or press **OK** to send.

Note: To take self-portraits with flip closed, press and *hold* the side  Key. Press side volume key to activate viewfinder, then  to take picture.

To view pictures, press the  Key, then select **Gallery**.

*Camera setting of 1280 x 960 does not support zoom or multishot functions.

Recording a Video

Need more than a picture to tell the story? Create 15-second video clips that capture those indescribable moments, then share them with friends.

1. To record a video, press and *hold* the inside  **Key**.
2. Press **left** or **right** on the Navigation Key to adjust brightness and **up** or **down** for zoom and press **OK**. Press the **Right Soft Key** to adjust resolution, flash (video light), and white balance.
3. Press **OK** to start/stop recording. Press the **Left Soft Key** to pause/resume recording.
4. Press the **Left Soft Key** to save or press **OK** to send.

Note: To view videos, press and *hold* the inside  **Key**, then select **Gallery**.

Using Voice Commands

With a press of a key, you can handle a host of common tasks simply by talking to the phone. Or record up to 200 memos to capture those fleeting thoughts and reminders.

1. From standby mode, press the **Voice Command/Memo Key** on the lower left side.
2. After the prompt, say a command: Call Someone, Digit Dial, Voice Mail, Missed Calls, Messages, or Time & Date.
3. Follow the prompts.

Note: Press and *hold* the side **Voice Command/Memo Key** to activate the voice memo recorder.
