

ALL THE RIGHT TOUCHES

Pick up the LG Genesis and you'll find a lightning-quick handset and portable Wi-Fi® hotspot* all in one. With 5 or 7 custom home screens, it's your shortcut to business emails and social networks. Turn on its Wi-Fi® feature, and it powers an impromptu network—up to 5 nearby devices—with Internet access. The wireless wonders don't stop there. Beam your onboard photos, movies, and music to DLNA®-enabled TVs, game consoles, and entertainment systems for sharing. And when nobody's around, bring the world to your fingertips with two large touch screens, Swype® continuous-motion text input on the outside, and a full QWERTY keyboard on the inside. OMG, it's GR8!

*U.S. Cellular service required, additional charges apply.

LEAD THE CONVERSATION
with this Android™-Powered Smartphone

The Fast Lane is at Your Fingertips

Android-Powered Acceleration for Your Fast-Paced Digital Lifestyle

ANDROID Speed and connectivity are the formula for productivity. That's what you get when you make the LG Genesis your new hub away from home. Streamline tasks with lightning-quick Android 2.2, and become prolific with a host of onboard Google™ apps and 100,000+ more waiting in Android Market.™

FULL QWERTY KEYBOARD

- A wide, full QWERTY keyboard makes it easy to find the right keystrokes for the words to just roll off your thumbs.
- A virtual QWERTY on the external touch screen lets you Swype® type with your fingertip thanks to its continuous-motion input capabilities.

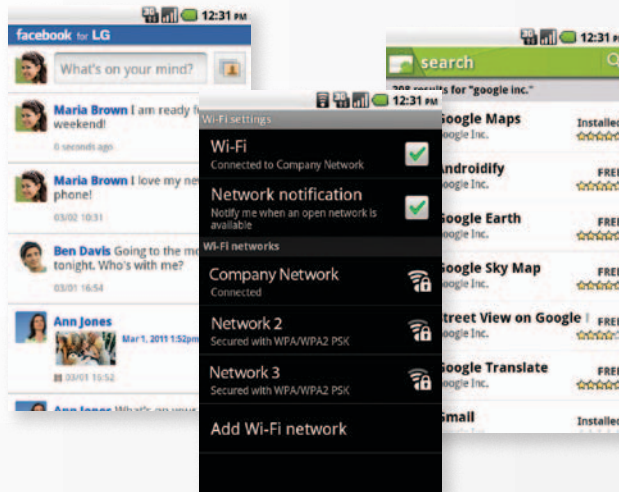

TWO LARGE TOUCH SCREENS

- A generous 3.5" external touch screen gives you plenty of real estate to view social network updates and offer up quick responses on a virtual QWERTY keyboard.
- The 3.2" landscape internal touch display lets you navigate with your fingertip, but the physical QWERTY keyboard allows you to write emails and Tweet with Twitter with ease.

PORTABLE WI-FI® HOTSPOT

- Genesis isn't selfish. It can generate a Wi-Fi hotspot* at a moment's notice, so you can share your mobile Internet connection with up to five devices.
- The phone itself is Wi-Fi capable too, so you can connect via local wireless networks when you're out and about.

*U.S. Cellular service required, additional charges apply.

DLNA WIRELESS STREAMING

- Wirelessly stream photos, videos, music, and emails to DLNA-enabled devices like TVs, home entertainment systems, game consoles, and printers.

5.0 MP AUTOFOCUS CAMERA/FLASH

- Take high-resolution photos and videos in sunlight or low light. Use 2x zoom to bring distant things closer. Switch to macro mode for things right under your nose.
- Use the special face tracking feature to automatically focus on the people in your shot.
