KOMPRESSOR® Canister  
PetCare Plus Vacuum Cleaner

### HIGHLIGHTS

KOMPRESSOR® System  
DualForce™ with Motorized Bar Tool  
Compact Canister Design

### FEATURES

- KOMPRESSOR®  
First Motorized Compression Vacuum  
Dust Compression System  
(with Wiper Blade)
- DualForce™ with Motorized Bar Tool
- Compact Canister Design  
with Onboard Tool Storage
- HEPA Filter
- Retractable Cord (21 Ft.)
- Easy Storage
- Handle Controls

## CANISTER VACUUM

LG's new LcV900B KOMPRESSOR® Canister PetCare Plus Vacuum Cleaner packs many of the innovative features LG has become known for into a low-profile canister model. The KOMPRESSOR® technology allows you to pick up 3 times more dirt, dust and pet hair before emptying it. The unique DualForce™ suction lets you clean a wider area and get to hard-to-reach edges, while the retractable cord makes it easy to get where you need to go.

### KOMPRESSOR® System

Goodbye messy vacuum bags. The KOMPRESSOR® system uses a unique wiper blade within the bagless bin to keep it clean while compressing dust intake. That allows you to store up to 3 times more dirt, dust and pet hair vs. non-compressor models, and means there's an easy-to-dispose-of cake of dust when you empty it.

### DualForce™ with Motorized Bar Tool

DualForce™ suction uses two additional air pathways to pick up dirt from both sides, in addition to the traditional center section. This allows you to capture dirt and dust over a wide surface area, and is ideal for picking up dust in hard-to-reach edges.

### Compact Canister Design

LG packed loads of vacuum innovations into a low-profile, compact canister design. The canister design offers easy access to several tools, including a Pet Hair Turbine tool, a 2-in-1 crevice tool/dusting brush, and a telescopic wand that can be stored in the canister itself.
