## CELEBRATE BEING INDECISIVE

Temperatures don't always match up with their corresponding season. Which is why we've created an energy efficient, single unit air conditioner and heater. It provides seasonal heating and cooling so you can feel comfortable all year round, no matter the season. And with 18,000 BTUs, it can heat up to 450 square feet, or cool up to 1000 square feet.

#### Seasonal Heating & Cooling

Whether it's cold in April or hot in October, we've got you covered all year round so you can always feel comfortable at home.

#### Multiple Cooling/Heating Speeds

Control the temperature of the room at your pace with our multiple heating and cooling options.

#### 4-Way Air Direction

Enjoy the cool air even more with our 4-way air direction. By adjusting the deflection, air is directed up, down, left or right. So you can move the air where it's needed most.
