## TWO OVENS. THAT'S THE REAL CHARM.

Enjoy twice as many possibilities with LG's Double Built-In Wall Oven. Thanks to SmoothTouch™, control over every function will be at your fingertips. And, with Crisp Convection – which creates the right airflow for more even heat distribution throughout the oven – you'll be able to preheat to the ideal temperature, 30% faster. As you can see, if one oven is good, having two is even better.

#### Crisp Convection

Continually distributes heat precisely so cooked foods such as biscuits, scones or pizza can remain delicious on the inside and crisp on the outside.

#### Self-Cleaning

Both ovens come with a self-cleaning mode that virtually eliminates the need to scrub.

#### SmoothTouch™ Controls

Using your oven has never been easier. Intuitive, digital controls allow heat and function adjustments to be made with the touch of a finger.
