## Front Load Washer

### Ultra Capacity

4.5 cu.ft. Ultra Capacity is among the largest washers available. This allows for larger loads saving you time and energy.

### Large Door Opening

The 16.93" extra large door opening is one of the largest openings available. This allows for a spacious opening for easier access for loading and unloading clothes and bulky items.

### Wash/Rinse Optimizer™

The Wash/Rinse Optimizer™ delivers optimal washing and rinsing performance. A special sensor determines the amount of detergent and water hardness, making automatic adjustments to the wash/rinse processes. When there is too much detergent, additional rinse cycles are added to virtually eliminate soap residue making fabrics more comfortable on sensitive skin as well as ensuring a "like new" appearance on dark clothes. When too little detergent is used, this feature extends the wash cycle to ensure adequate cleaning performance.

### Intelligent Electronic Controls with Dual LED Display and Dial-A-Cycle™

Intuitive controls take the guesswork out of doing laundry allowing you to 'set it and go'.
