PRODUCT HIGHLIGHTS

Full HD 1080p Resolution

This leap forward in picture quality is the reason you wanted HDTV in the first place. Full HD 1080p meets the highest standards for high definition, displaying 1,080 lines of resolution on screen for a clearer, more detailed image that is simply breathtaking.

LED

LED uses tiny, energy-efficient light-emitting diodes to illuminate the picture. The new standard in HDTVs, LED is superior to older CCFL technology, making slimmer televisions possible, with amazing brightness, clarity and color detail.

Smart Energy Saving

This valuable feature includes a backlight control to adjust the brightness, a screen-off function that turns the screen off to play audio only, and the Standby Mode Zero function that allows the TV to effectively hibernate, using zero electricity.
