PRODUCT HIGHLIGHTS

720p

The 720p resolution on this HDTV results in superior picture quality with vibrant colors and far more detail than standard definition could ever provide.

webOS™ 2.0

LG Smart TV with webOS 2.0 has been redesigned to be simpler and more fun to use. Just sit back, relax, and let webOS 2.0 help you find exactly what you want to watch.

LED

LED uses tiny, energy-efficient light-emitting diodes to illuminate the picture. The new standard in HDTVs, LED is superior to older CCFL technology, making slimmer televisions possible, with amazing brightness, clarity and color detail.
