- 420 Watts

FEATURES

- Full Bucket Indicator with Auto Shut-Off
- Option for Continuous Drainage
- LED Display
- Touch Pad Button
- Automatic Humidistat Control
- 2 Fan Speeds
- Washable Air Filter

AIR THAT'S JUST RIGHT

This dual-speed LG dehumidifier doesn't just make the air in your home easier to breathe by controlling humidity. It helps prevent the growth of mold, bacteria and mildew. It also prevents excess moisture from damaging the materials in your home. And with great technology like an auto shut-off function to prevent overflow and automatic restart capability following a power outage, it's easier than ever to enjoy the benefits of better, less humid air.

30 Pints

This LG unit can remove up to a substantial 30 pints of moisture from the air in every 24 hour period.

Full Bucket Indicator with Auto Shut-Off

Stop guessing about when to empty water from the unit; a bucket-full indicator light will let you know when it's time. Plus, it's equipped with an automatic shut-off feature that helps prevent overflow.

Option for Continuous Drainage

Don't like having to empty your dehumidifier? With this unit, you can set up a permanent drain line from the dehumidifier's reservoir tank using a connector that works with any standard garden hose.

AIR CONDITIONER

LD301EL
