DESIGN

- CINEMA SCREEN Design

EXPERIENCE LIFE LIKE COLOR

The LG EA73 LED monitor features an immersive CINEMA SCREEN design with an ultra narrow bezel. The IPS panel helps keep image colors consistent at virtually any angle. And, with MHL you can connect your compatible device, such as a smartphone, to your monitor to enjoy content you have downloaded or captured yourself. Want stunning resolution? No, problem. The EA73 is a Full HD monitor and has Super Resolution that helps decrease image blur and degradation.

CINEMA SCREEN DESIGN

Less, is, more. Designed with pure inspiration and cutting-edge technology, LG's CINEMA SCREEN design delivers a sleek and more immersive viewing experience. Add a touch of modern style to your interior with LG's remarkable CINEMA SCREEN design.

IPS PANEL

Start seeing images like never before with an LG IPS panel display. In Plane Switching, or IPS, controls the liquid crystal display to help keep distortion at a minimum. This helps ensure optimal accurate color and maintains the color tones and consistent color temperatures of the original images.

MHL (MOBILE HD LINK)

Now with Mobile HD Link you can connect and watch HD content directly from your mobile phone on your LG monitor's large widescreen.
