webOS 3.0

webOS 3.0 is the latest generation of LG's acclaimed Smart TV platform, adding advanced new features while making it even easier to use. The user interface is more intuitive, mobile devices can connect in new ways, and now it's more fun than ever to find and enjoy exactly what you want to watch.

4K Upscaler

Multi-step data analysis enhances the detail of all video content--HD or SD--to near-4K quality, delivering a viewing experience optimized for a crystal-clear Ultra HD TV.
