webOS 3.0

ENERGY STAR® Qualified

## SUPER UHD

SUPER UHD is LG's best UHD LED TV yet, a Smart TV offering a superior 4K experience by incorporating advanced technologies that deliver over a billion rich colors, smoother motion and elevated brightness. And HDR Super includes Dolby Vision to provide more viewing options.

## HDR Super with Dolby Vision™

LG SUPER UHD TVs support high dynamic range plus Dolby Vision together in one premium television. They deliver deeper black levels and superior brightness for enhanced contrast ratio, plus over a billion rich colors. The image now comes to life as never before, with the most HDR content choices.

## IPS 4K Quantum Display

LG SUPER UHD TVs are able to reproduce more shades of more colors with finer gradations plus deeper black levels and higher peak brightness. This yields a more accurate, more lifelike picture from a wider viewing angle, thanks to IPS 4K Quantum Display technology.
