Palm of  
Your Hand

**LG**

Life's Good

The thrill of watching a high-speed chase zoom across a big screen. The warmth of creating and sharing memories with the ones you love—near or far. The freedom to express your imagination in a whole new way. And the pride of performing at a higher level, with the help of a dynamic device that's set for success. For first-time smartphone users, the LG Optimus F7 puts powerful features, incredible entertainment, and sensational functionality within reach. Featuring lightening-fast 4G LTE connectivity, a long-lasting battery, expansive display, advanced camera features, and more. It's slim, stylish, and undeniably perfect for them.

**So place the power of imagination in their grasp with the Optimus F7.**

# LG Optimus F7™

## See What You've Been Missing

Featuring an expansive **4.7" True HD IPS Display**, Optimus F7 provides extraordinarily accurate true-to-nature color, crystal-clear HD imagery, superior readability, and an immersive visual experience.

## Power Through the Day

Optimus F7's **2,540 mAh battery with SIO+ technology** and **power saver mode** gives you up to **13 hours of talk time**—so you can keep going long after most other smartphones would have called it quits.

Preloaded Game - Let's Golf 3

## Brainstorm with Friends

**VuTalk** lets you share ideas visually with another VuTalk user, from handwritten notes to drawings, maps, and more. Choose pen size, color, and opacity level, add stickers, take photos, and sketch plans in real time. Your collaborative creations are saved automatically in the Notebook app.

\* Must initially be established over a voice call with a contact who has a VuTalk enabled device.

## Capture Perfect Moments

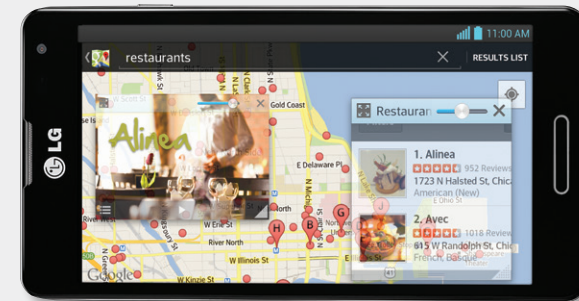

Optimus F7's **8 MP camera** has the quality, speed, and intelligence to capture each moment as you see it. It's packed with intuitive features, while its **Full HD 1080p video recording** lets you take high-resolution video. Plus, with **Live Zoom** functionality, pull in close on moving imagery while video is replaying.

**Live Zooming** lets you zoom in and move around the screen when replaying a recorded video.

## Multi-Tasking on a Whole New Level

**QSlide 2.0™** is the ultimate multitasker, giving you the ability to perform several actions at once—quickly access your most-used apps and view multiple windows at the same time while adjusting window size and transparency.

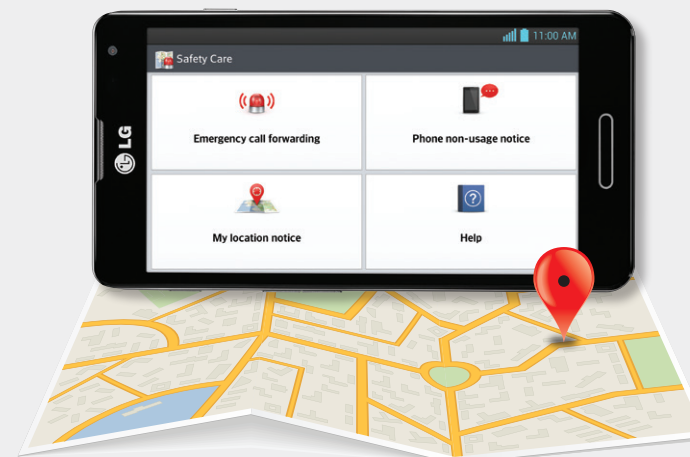

## Peace of Mind

**Safety Care** provides you, or a designated recipient, three different kinds of important alerts:

**Emergency Call Notification** sends an SMS when a 911 call is placed.

**Phone Non-usage Notification** sends an SMS when the phone is not used for a certain period of time.

**My Location Notification** conveys the GPS location of the app user to a designated person whether the user places or receives a call.

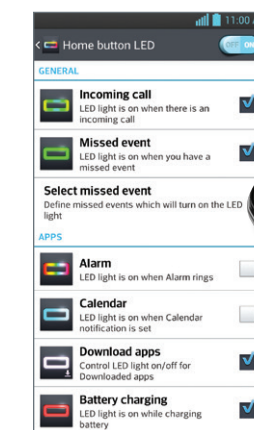

## Tap Into Creativity

Add a personal note to any photo, map, or website, and share it in an instant with **QuickMemo™**. Just press the dedicated Hot Key and use your finger to jot down info during a call, doodle a design over a photo, or circle your destination on a map.

## Always On Full Alert

Be instantly alerted to the things that matter without needing to wake up your display. Whether it's a missed event, incoming call, update notification, and more, the **LED light** around your **Home Button** will glow with specific colors and patterns.
