

DOOR-IN-DOOR™

Easy Access for your Convenience

Quick and Easy Access

LG Door-in-Door™ is a quick and easy way to take out favorite foods.

Less Cold Air Loss*

You can reduce cold air loss in the refrigerator when you open the Door-in-Door™.

You can store your food fresher for longer with LG Door-in-Door™.

Open upper-right door

Open only Door-in-Door™

Type	10 sec.	20 sec.	30 sec.
Multi-Door	47.3%	33.8%	24.3%

* Tested by **Intertek**

Based on Intertek testing of SX5534WB, GR-S632GLRC and LFX31945ST/02, according to LG internal test method, measuring percentage reduction in exchange rate of air when opening Door-in-Door compared to fridge door for 10 seconds. Results may vary by models and duration of door opening.

THE WORLD'S FIRST REFRIGERATOR

WITH 3-TIER FILTRATION™ SYSTEM

[PRE-CARBON FILTER, UF FILTER, AND POST-CARBON FILTER]

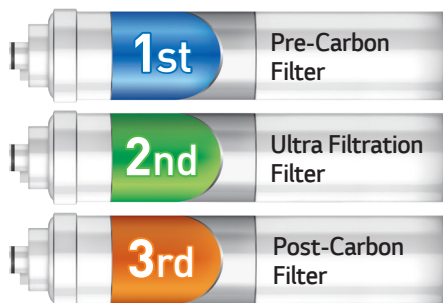

LG 3-TIER FILTRATION™ SYSTEM

CLEAN AND ODORLESS DRINKING WATER

Ensure your family's water and ice is great-tasting and clean with LG 3-Tier Filter French Door Refrigerators.

Designed to reduce many contaminants found in water, it provides crisp and refreshing water & ice with no chlorine taste and odor.

Reduces up to 99.99% of bacteria found in water.

Reduce residual chlorine, heavy metals, particles, and organic chemicals.

Stainless Steel Water Tank

Features a stainless steel water tank.

Water Tank stores water up to 1.4L (47.3 oz.).

Measured Fill

The Measured Fill helps make cooking convenient. It provides up to 8 different liquid measurements that lets you select the exact amount of filtered water you need, whether it's in ounces, cups or liters.

8 different increment settings
