## Slide by with Smarts

### Long-Lasting Battery

Power through life with Enact's reliable 2,460 mAh SiO+ Battery, with up to 11 hours of talk time. It has the ability to make it through the longest days without adding extra bulk to the form factor.

### Starter and Standard Modes

Go the simple route with Starter Mode, or get personal with Standard Mode. Enact was created for every level of smartphone user, featuring a simplified UI for those who are new to smartphones, or the standard, customizable interface that seasoned Android users are used to.

Standard Mode

Starter Mode

### 4G LTE Network

Upload, download, stream, browse, and connect at lightning-fast speeds thanks to the 4G LTE network.

## 4.0" WVGA Display

View on-screen content in accurate color and vibrant clarity on the 4.0" WVGA Display with 233 pixels per inch, enhanced with the durability of Corning® Gorilla® Glass protection.

## 5 MP Camera

Capture the best of any angle with Enact's 5 MP Camera that's enhanced with smart photography features providing opportunities to preserve the unique essence of every moment.

### Time Catch Shot

Pick the best photo with Time Catch Shot, capturing five pictures the moment before the shutter button is pressed.

### VR Panorama

Take in entire horizontal and vertical environments for a virtual 360°-like scene stitched together in one final image.

### Life Effects

Add creativity to any video with Live Effects, enhancing scenes with backgrounds and visual effects.

### Live Shot

With Live Shot, take pictures while recording video, giving you the best of both worlds.

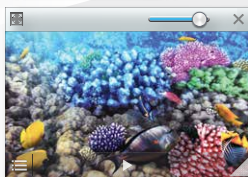

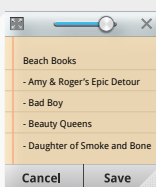

## QWERTY Keyboard with PC-like Shortcuts

Eliminate errors the easy way by inputting text with a 5-line slide-out QWERTY keyboard. Tactile keys make it easy to hit the right button every time, ensuring each word or message says what it should.

## Quality Communicator

The Quality Communicator feature lets you type and share information quickly without launching any apps at all. Open the QWERTY Keyboard and begin typing to access the Communicator screen, type a note, then share or save your message with a single tap.

## QSlide

View multiple screens at once with QSlide, letting you see and accomplish more by adjusting window size and transparency.

## QuickMemo

Instantly capture ideas and share a unique sense of creativity by writing or drawing on any screen capture with just your finger and QuickMemo.

## QuickTranslator

Translate the words or sentences of 45 languages directly on-screen with QuickTranslator. This camera-based on-device tool scans from a single word to a block of text, providing a real time translation.
