

Flip for Simplicity.

Imagine a phone that doesn't overdress, never gets weighed down with frills, and opens up whenever someone needs to chat. LG Envoy II is the flip phone they need, able to accomplish all the necessities—such as voice calling or the occasional messaging—without the excessive bells and whistles. Plus, it has a convenient camera to document the simple things in life. Pocketable, personal, and perfect.

Communicating with friends and family gets more technical every day. But what if they could make calls, send text and picture messages, and use one-touch speakerphone by just flipping open their device? With LG Envoy II, they can—it is lightweight and sleek enough to fit in every hand with **easyedge™** functionality for games and apps, WAP browser for online searching and updating, and VGA camera capabilities for wireless *Bluetooth®* printing. Now, they can always be flipped in.

Small Yet Bold

Jet-black and smooth, this phone is ready for its unveiling day or night. Able to flip open for in-hand comfort or close shut for compact convenience, Envoy II is made to be seen, inside and out.

A Cool Way to Communicate

Add a small yet personal touch to text messages with colorful photos or voice memos, made for connecting with everyone in the quickest and most imaginative way.

Remembering a Moment

If it's the little things in life that matter, they should be captured with Envoy II's 1.3 MP Camera. And with Image Editor, memories can be zoomed in on, brightened, and even intensified.

Stay Informed All Day

Never feel behind the times while on the go, because Envoy II provides information at any instant with online browsing.

Straight to the Point

Scrolling through a contact list to place a call is as tedious as flipping through a phone book. With Favorite Contacts, access up to 10 most called friends and family immediately.
