2016 Magic Remote Control

Overview

Compliment your 2016 LG Smart TV purchase with our Magic Remote. Point and Click Navigation makes finding the content you love most, quickly and easily! You can also save time by entering text with your voice*. You can also control your connected AV devices** (such as Blu-ray Player and Sound Bar) with the built-in Universal Remote functionality. The LG Magic Remote is a combination of Smart controls in a comfortable design.

Voice Interaction***

Speak to your Magic Remote to search content and control popular functions. If you want to search for something in the online browser, simply speak into the Magic Remote and watch the text appear on the screen. And the cool thing is that this Voice Recognition works superbly with Australian accents. You beauty!

Number Keys

For an easy input of numbers and direct access to channels.

Simple Navigation

Just point and click - this remote makes your Smart TV easier to use. Scroll up and down, zoom in and out with a wheel, just like using a computer mouse.

Notes:

*FreeviewPlus uses HbbTV technology which combines broadcast and internet streaming. Internet connection is required. Data usage charges and conditions apply.

**Some brands not supported, check website for details: www.lgappstv.com/appspc/oss/support.lge

***Voice recognition feature is not available in all languages and dialects. Actual performance may vary depending on the language spoken and surrounding environment including ambient noise.
