Available: May 2014
RRP^: \$1099

9.1ch Cinema Sound

Enjoy immersive audio! Four vertical firing speakers are added to a conventional 5.1 channel Home Theatre System resulting in a 9.1 channel sound experience. 9.1 channel Home Theatre Systems employ 10 individual audio amplifiers and use the DSX 2 chip to upconvert existing 5.1ch movie audio tracks.

Private Sound Mode

Ensure the rest of the family isn't disturbed when you want to enjoy a late night movie. Send sound directly from your Home Theatre System to your smartphone or tablet via Wi-Fi and enjoy with regular headphones.

Bluetooth Streaming

Enjoy your favourite music on mobile devices through the LG Home Theatre system with wireless audio streaming via Bluetooth® technology.
