### Inverter Linear Compressor

LG Inverter Linear Compressor offers greater control of energy consumption, with less vibration and less noise than a conventional compressor system.

LG 10 Year Parts Warranty - as this is the heart of your refrigerator we back this with a 10 year parts warranty on the compressor<sup>1</sup>.

### Smart Diagnosis™ 2.0

LG Smart Diagnosis™ 2.0 allows the Refrigerator to talk for itself. If an error occurs, you can use the LG App or make a phone call to the LG Customer Information Centre. A diagnosis can then be made resulting in less wasted time, less inconvenience and unnecessary call outs.<sup>2</sup>

### 4½ Star Energy Rating

4½ Star Energy Rating - Why is it important to have an energy efficient refrigerator? Because it's on 24 hours a day. By combining the LG Inverter Linear Compressor with a new internal design, we have achieved a high 4½ star energy rating.

### Moisture Balance Crisper

LG Moisture Balance Crisper maintains the moisture balance in the crisper. The lid of the crisper has a lattice structure that retains evaporated moisture from fruit and vegetables, to help keep them fresher for longer.

<sup>1</sup> 2 Years parts and labour + 3 years on sealed refrigeration system (compressor, evaporator, dryer and tubing) parts only + 5 years on compressor (part only)

<sup>2</sup> LG Smart ThinQ app Required (Android 2.2+, iOS 4.3+)
