### Inverter Linear Compressor

**LG Inverter Linear Compressor** offers greater control of energy consumption, with less vibration and less noise than a conventional compressor system.

**LG 10 Year Parts Warranty** - as this is the heart of your refrigerator we back this with a 10 year parts warranty on the compressor.

\* 2 Years parts and labour + 3 years on sealed refrigeration system (compressor, evaporator, dryer and tubing) parts only + 5 years on compressor (part only)

### Smart Diagnosis™ 2.0

**LG Smart Diagnosis™ 2.0** allows the Refrigerator to talk for itself. If an error occurs, you can use the LG App or make a phone call to the LG Customer Information Centre. A diagnosis can then be made resulting in less wasted time, less inconvenience and unnecessary call outs.

\* LG Smart Diagnosis app Required (Android 2.2+, iOS 4.3+)

### 4½ Star Energy Rating

**4½ Star Energy Rating** - Why is it important to have an energy efficient refrigerator? Because it's on 24 hours a day. By combining the LG Inverter Linear Compressor with a new internal design, we have achieved a high 4½ star energy rating.

### Moisture Balance Crisper

**LG Moisture Balance Crisper** maintains the moisture balance in the crisper. The lid of the crisper has a lattice structure that retains evaporated moisture from fruit and vegetables, to help keep them fresher for longer.
