- ✓ 2½ Star Energy Rating

Inverter Linear Compressor

LG Inverter Linear Compressor offers greater control of temperature, with less vibration and less noise than a conventional compressor system.

LG 10 Year Parts Warranty - as this is the heart of your refrigerator we back this with a 10 year parts warranty on the compressor.

* 2 Years parts and labour + 3 years on sealed refrigeration system (compressor, evaporator, dryer and tubing) parts only + 5 years on compressor (part only)

Dual Door-In-Door™

LG Dual Door-In-Door™ offers smart storage for cooking ingredients and puts your family's favourites front and center. Use the Cooking Space door for condiments and frequently used items. The Family Space door gives your family easy access to snacks and drinks. The dual Door-In-Door feature means less cold air loss to help keep food stored inside the fridge fresh.

Bluetooth® Soundbar

The LG Bluetooth® Soundbar - With the kitchen being the centerpiece of your home, you spend more time in and around it. This innovative built-in soundbar with bluetooth wireless technology is hidden on top of the fridge. You no longer need to clutter your kitchen bench to have a music filled room.

Pure N Fresh

LG Pure N Fresh - is a unique air purification device inside the refrigerator. A fan assisted Carbon Deodoriser actively forces odour filled air through the deodoriser and sends it back across three different shelving levels via the ducting.
