Inverter Linear Compressor

LG's **Inverter Linear Compressor** offers greater control of energy consumption, with less vibration and less noise than a conventional compressor system.

LG's 10 Year Parts Warranty - as this is the heart of your refrigerator we back this with a 10 year parts warranty on the compressor.

* 2 Years parts and labour + 3 years on sealed refrigeration system (compressor, evaporator, dryer and tubing) parts only + 5 years on compressor (part only)

Smart Diagnosis™ 2.0

LG's **Smart Diagnosis™ 2.0** allows the Refrigerator to talk for itself. If an error occurs, a phone call can be made to the LG Customer Information Centre and the refrigerator will emit a 6 second signal. This allows LG to diagnose the issue resulting in less wasted time and less inconvenience.

4 Star Energy Rating

LG's **4 Star Energy Rating** - Why is it important to have an energy efficient refrigerator? Because it's on 24 hours a day. By combining the LG Inverter Linear Compressor with this latest design, we have achieved the highest* in class 4 star energy rating. This can save up to 35% on your Refrigerator energy cost¹, when compared to bottom freezer models sold by the leading brand.
