Wireless Rear Speakers

The rear speaker audio signals are transmitted wirelessly to the rear receiver module, reducing messy wires from the front to the rear of the room.

Bluetooth® Streaming

Enjoy your favourite music on mobile devices through the LG Home Theatre system with wireless audio streaming via Bluetooth® technology.

CD/USB Multi-Room Streaming

Stream your CD and USB audio files to LG Music Flow Wi-Fi speakers on your network.

Direct Access to Premium Contents

Easy access to Premium Contents such as YouTube, Netflix and much more!

Private Sound Mode

Ensure the rest of the family isn't disturbed when you want to enjoy a late night movie. Send sound directly from your Home Theatre System to your smartphone or tablet via your home router and enjoy with regular headphones.

LG Smart Features

LG Smart provides a variety of popular streaming entertainment and Video On Demand services.
