RH735T

Twin HD Tuner DVD Recorder

Available: April 2013
SRP \$449[^]/MRP \$516[^]

The RH735T features Twin High Definition Tuner recording and playback functionality - so you won't miss your favourite programs. Simply record onto the 500Gb internal Hard Disc Drive, so you can watch them at a convenient time. In addition, connect your VHS player using the AV (Composite) input and archive your family video recordings onto a blank DVD disc.

Twin HD Tuner recording and HD Contents playback

Twin HD tuners allow simultaneous recording of two live channels while playing other media files from the built-in HDD or external HDD.

AV Input

AV composite input allows external source recording from your VCR, Set-top box, Digital Camera and Camcorders.

USB Plus

LG's USB Plus feature allows you to play back JPEG, MP3 and DivX files stored on a USB flash memory device.*

**USB flash memory device not included and must be purchased separately.*

Full HD Upscaling

The Full HD up-scaling feature matches lower resolution video content to the native resolution of Full HD displays, resulting in better detail, which is great for your old DVD collection.*

**Image quality of upscaled content will vary based on the source resolution*
