Overview

The LG SK85 Super UHD TV series comes with Nano Cell Technology which helps deliver breathtakingly vivid colours at wide viewing angles, for an amazing experience. Combine this with Dolby Atmos® and 4K Cinema HDR with Dolby Vision™, and you have everything you could want in a TV.

AI ThinQ™

LG AI ThinQ offers an enhanced interactive experience in the company's new 2018 TV lineup by employing Natural Language Processing (NLP) to deliver intelligent voice-activated control.

4K Cinema HDR with Dolby Vision™

4K Cinema HDR delivers a stunning high dynamic range picture, while Dolby Vision™ dramatically enhances the colour and contrast of content frame-by-frame, for a truly cinematic viewing experience.

Nano Cell™ Technology

Nano Cell Technology with IPS provides breathtakingly vivid and eye catching colour even at wide viewing angles, for an amazing experience.

Full Array Dimming

Full Array Dimming actively dims the backlight on your TV, significantly improving black levels for better contrast.

*Internet connection and subscriptions may be required to access certain content. Internet usage charges and conditions apply. Content, features and ThinQ services will vary from time to time without notice. Video resolution will vary based on internet speed. Check your content and internet provider for full details. Depending on language, voice clarity and available content or source material, voice commands may not always deliver or respond to the requested command.
