WASHING MACHINES

## No Ordinary Washer

### 6 Motion Wash Technology

- LG's **6 Motion** wash technology offers 6 distinct wash actions, all based on traditional hand washing techniques. The machine automatically uses the appropriate motions for the wash program selected.

### Smart Diagnosis 2.0

- LG's **Smart Diagnosis 2.0** allows the Washing Machine to talk for itself. If an error occurs, a phone call can be made to LG Customer Information Centre and the machine will emit a 6 second signal. This allows LG to diagnose the issue resulting in less wasted time and less inconvenience.

### 2-in-1 Convenience<sup>^</sup>

- By having a washer/dryer combo there is no need to transfer your wet articles to another machine. It also allows you to completely wash and dry your articles while you're asleep. Wake up to freshly washed and dried clothes every morning. You can also take advantage of any off peak electricity rates where available.

<sup>^</sup> 4kg maximum drying capacity

### Direct Drive Motor

- LG's **Direct Drive Motor** when compared to non-direct drive systems, gives less vibration, and less noise (54dB). - **Greater durability** and that's why you get LG's 10 Year Direct Drive Warranty comprising of 2 Years Parts and Labour + 8 Years on the Direct Drive Motor (parts only)
