# WD1408NPW

8kg Front Load Washing Machine with 6 Motion Direct Drive & TurboClean™

Available July 2016

## Features

- ✓ TurboClean™
- ✓ Inverter Direct Drive Motor System
- ✓ 6 Motion Wash Technology
- ✓ Smart Diagnosis and Tag On
- ✓ 8kg Capacity
- ✓ Smart Diagnosis™ 3.0
- ✓ 1400rpm
- ✓ Pause & Add
- ✓ 14 Washing Programs with 9 Options

### TurboClean™

TurboClean™ uses a short burst of water spray from a nozzle located at the front of the drum during the rinse cycle to help deliver quicker wash times. By reducing the number of rinse cycles wash times can be lowered by up to 30 minutes and water usage cut down by up to 45% for a 3.5kg Cotton wash.<sup>1</sup>

### Inverter Direct Drive Motor

The direct drive motor with inverter control is an advanced motor system to a traditional belt and pulley system. It delivers a reliable, quiet and durable mechanism with less moving parts - that's why you get a 10 Year Parts Warranty on the LG Inverter Direct Drive Motor.<sup>2</sup>

### 6 Motion Wash Technology

LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle and your machine selects the best combination of washing motions to give you an outstanding wash, whilst also caring for your clothes.

### Smart Diagnosis and Tag On

With a smartphone and the LG Smart Laundry app the washer can "talk for itself" to find a solution to help save time and money on unnecessary call outs.<sup>2</sup> On a NFC enabled Android device, Tag On uses Near Field Communication (NFC) technology to enable the download of additional wash cycles and the viewing of machines usage history.<sup>3</sup>

<sup>1</sup> Compared to 3.5kg Cotton cycle on LG front load washer without TurboClean at default setting. TurboClean available on selected wash programs. Time and water saving will vary depending on model, wash load and cycle selected.

<sup>2</sup> Compatible smartphone required, Android 4.1.2 (JellyBean) or later or iOS 8 or later required for LG Smart Laundry app and Audible Smart Diagnosis feature.

<sup>3</sup> Mobile 3G/4G or WiFi connection, LG Smart Laundry app is required for Tag On feature.
