- ✓ 14kg Capacity
- ✓ Inverter Direct Drive Motor System
- ✓ Smart Diagnosis™ 3.0
- ✓ Transparent Glass Lid
- ✓ 950rpm
- ✓ 12 Washing Programs with 6 Options

6 Motion Wash Technology

LG 6 Motion Wash Technology- LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle. Your washer works out the best combination to give you an outstanding wash, whilst also caring for your clothes.

On-Board Heater

The On-Board Heater allows this Top Loader to achieve a 60°C washing temperature when you need it, like when you are washing sheets or towels. Higher temperatures help remove common household allergens and stubborn stains.

Stainless Steel Tub

A Stainless Steel Tub is more effective to help control bacteria growth than tubs made of plastic or containing plastic agitator or pulsator. A hygienic tub helps maintain a hygienic wash.

Tag On with NFC

Tag On with NFC enables the download of additional washing programs via a Smartphone to the washer. It also lets the user view usage history and diagnose any issues with the washer.
