- ✓ Smart Diagnosis and Tag On
- ✓ 9.5kg Capacity
- ✓ Smart Diagnosis™ 3.0
- ✓ Transparent Glass Lid
- ✓ 950rpm
- ✓ 12 Washing Programs with 6 Options

Inverter Direct Drive Motor

The direct drive motor with inverter control is an advanced motor system to a traditional belt and pulley system. It delivers a reliable, quiet and durable mechanism with less moving parts - that's why you get a 10 Year Parts Warranty on the LG Inverter Direct Drive Motor.¹

6 Motion Wash Technology

LG 6 Motion Wash Technology- LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle and your machine selects the best combination of washing motions to give you an outstanding wash, whilst also caring for your clothes.

Stainless Steel Tub

A Stainless Steel Inner Tub is more effective to help control bacteria growth than tubs made of plastic or containing plastic agitator's. This combined with the Tub Clean program helps maintain a hygienic wash.

Smart Diagnosis and Tag On

With a smartphone and the LG Smart Laundry app the washer can "talk for itself" to find a solution to help save time and money on unnecessary call outs. Tag On uses Near Field Communication (NFC) technology to enable the download of additional wash cycles and the viewing of machines usage history.²

¹ 2 Years parts and labour + 8 years on Inverter Direct Drive Motor (parts only)

² Compatible smartphone required, Android 4.1.2 (JellyBean) or later or iOS 8 or later required for LG Smart Laundry app and Audible Smart Diagnosis feature. Mobile 3G/4G or WiFi connection, LG Smart Laundry app is required for Tag On feature.
