DRY CLEAN LESS OFTEN

LG Styler User Reviews

And that's just a few

“ The LG Styler has been a home-essential for the whole family! From steam-freshening our cushion covers and the kids' favorite soft toys to my husband's suits and even his favorite jeans. Best of all, for a fashion-loving mama, it freshens my silks, pleats, laces and leathers which I used to have to send frequently for dry-cleaning or special care, now I freshen them in the Styler and it prolongs their use and cuts down on dry-cleaning time and cost. It's sleek, stylish and doesn't take up much room!”

“ A Gem - two words which aptly describe the LG Styler. My work often requires that I wear a jacket. With the LG Styler in my office, my jackets get refreshed and steamed in a jiffy. I love the convenience the LG Styler offers - so do my colleagues :) ”
