OVER-THE-RANGE

Energy Savings Feature

Saves energy by turning off the display when not in use. The display will turn off when the unit is not active for 5 minutes. When this feature is in use the power consumption drops to below 0.1 W.

Sensor Cook Technology

Senses humidity inside the oven and automatically adjusts cook time and power appropriately. Once your food is thoroughly cooked, the microwave shuts itself off, reducing the risk of under or over-cooking.

One Touch Settings

Makes it easy to cook and warm a variety of foods- from a cup of coffee to chicken nuggets.

Add Time Controls

Adds cook time in 30 second or 1 minute increments.

Premium Stainless Steel Style

Why choose between style and power? LG's premium stainless steel finish brings elegance and clean lines to your over-the-range microwave and beauty to your kitchen. The metal wraps completely around the corners of the machine, achieving a high-end look.
