# FRENCH DOOR

## Counter Depth

Designed to match the depth of your kitchen cabinets, so it'll fit right in!

## Slim SpacePlus™ Ice System

It's great having an ice maker, but not if it means you can't fit all of your food in the fridge or freezer. The Slim SpacePlus™ ice system frees up additional door bin space providing more usable shelf space and additional door space.

## 10 Year Warranty on Linear Compressor

When you buy a refrigerator, you don't want to worry that it won't last. Because the Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs this exclusive technology with a 10 year warranty.

## Smart Cooling System

Smart Cooling technology maintains optimal humidity and temperature levels so your food stays fresher, longer. Digital sensors constantly monitor conditions within the refrigerator, while the Linear Compressor reacts quickly to keep temperature at a level that's best to keep your food fresh. Multi-Air Flow design means strategically-placed vents in every section surround your food with cool air no matter where you put it.

## Tall Ice & Water Dispensing System

From pitchers to pint glasses: finally a water dispenser that can accommodate just about all. The water- and ice-dispenser in this LG refrigerator is one of the tallest around, with the water dispenser measuring in at an ultra-accommodating 12.6 inches.

## Double Freezer Drawer

Two drawers provide the ultimate in convenient organization and easy access. The upper EveryDay Freezer drawer provides easy access to those frozen foods you reach for most. The lower drawer is a separate freezer compartment that lets you store larger items and is great for longer-term storage.
