TOP LOAD WASHER

TrueBalance™ Anti-Vibration System

Creates a quieter washer operation by reducing vibration and noise.

ColdWash™ Technology

Now using the cold cycle on your washer doesn't mean compromising how clean your clothes are. ColdWash™ technology uses cold water to penetrate deep into fabric, while saving you money on your energy bill. Cold water savings with warm water performance.

WaveForce™ Technology

If you thought water had done all it could to clean your clothes, you haven't experienced WaveForce™ technology. Rapid drum movement and powerful water jets provide outstanding washing and rinsing performance, while staying gentle on clothes.

SlamProof™ Lid

No need to announce to the whole house when one load has come out and another has gone in. The SlamProof™ Lid is safe, convenient and noise-reducing.

SmartRinse™ Jet Spray System

Saving water doesn't mean compromising cleaning power. At least not when you have the SmartRinse™ Jet Spray System. It provides better rinsing performance while making more efficient use of water at the same time.
